

**FR MONTAGE DU PLAFONNIER HELIOS**

1. Tracez et découpez dans le plafond une ouverture correspondante au plafonnier HELIOS à installer. *HELIOS 1* : 18x18cm. *HELIOS 2* : 32,5x18cm.
2. Raccordez le ou les transformateurs au plafonnier.
3. Desserrez les vis des attaches de fixation au maximum, en laissant un filet visible.
4. Remontez progressivement les attaches de fixation, les faire pivoter pour les faire passer dans le faux plafond, puis les laisser redescendre, pour les faire reposer sur le plafond.
5. Resserrez les vis des attaches de fixation pour maintenir le plafonnier.

**NL MONTAGE VAN DE PLAFONDLAMP HELIOS**

1. Traceer en snij uit het plafond de overéénkomstige opening met de te plaatsen HELIOS plafondlamp. *HELIOS 1* : 18x18cm. *HELIOS 2* : 32,5x18cm.
2. Verbind de transfo('s) met de plafondlamp.
3. Schroef de vijzen van de bevestigingsplaatjes zo ver mogelijk los maar laat een deel van de schroefdraad zichtbaar.
4. Schuif de bevestigingsplaatjes geleidelijk omhoog en beweeg ze dusdanig dat ze door de opening in het vals plafond geraken, dan het geheel laten zakken en ze op de plafond wand laten rusten.
5. Schroef de vijzen van de bevestigingsplaatjes terug vast zodat de plafondlamp vast blijft zitten.

**EN MOUNTING OF THE CEILING LAMP HELIOS**

1. Trace and cut off the ceiling the correspondent opening to place with the HELIOS ceiling lamp. *HELIOS 1* : 18x18cm. *HELIOS 2* : 32, 5x18cm.
2. Connect the transformer(s) with the ceiling lamp.
3. Unscrew the screws of the mounting plates as far as possible but leave a part of the screw thread visible.
4. Slide the mounting plates up gradually and move them such that they pass through the opening in the false ceiling, then put the whole lower and let they rest on the ceiling wall.
5. Screw back the screws of the mounting plates fixed so that the ceiling lamp hold.

**DE MONTAGE DER DECKENLEUCHE HELIOS**

1. Zeichnen und ausschneiden Sie aus der Decke, die angemessene Öffnung zum Montage der HELIOS-Deckenleuchte. *HELIOS 1* : 18x18cm. *HELIOS 2* : 32,5x18cm.
2. Verbinden Sie die Transformator(en) mit der Deckenleuchte.
3. Lösen Sie die Schrauben der Montageplatte so weit wie möglich, aber lassen Sie einen Teil des Schraubengewindes sichtbar.
4. Schieben Sie die Montageclips langsam nach oben und verschieben Sie schrittweise so, daß sie durch die Öffnung in der falschen Decke passieren, dann alles nach unten bringen und an der Decke-Wand ruhen lassen.
5. Schrauben Sie die Montageplatten fest, damit die Deckenleuchte haltet.

Manufacturer : DAVIDTS LIGHTING – Brussels – Belgium – [www.davidts.com](http://www.davidts.com)

## **Installation and security instructions (please read and save)**

This luminaire is manufactured according to European directives and standards relating to quality and safety of lighting fixtures. A declaration of conformity is available by downloading on our site.

### **Description of the lighting**

Lighting for fixing to the wall or ceiling. More pictures, drawings and complete descriptions are available on our website.

### **Environmental protection**

Our packaging is made from 100% recyclable or re-usable material. For care of the environment please sort or recycle. Fluorescent bulbs and waste electrical equipment should not be disposed of with household waste please take to a recycling facility. This fixture is essentially composed of solid brass. This metal and other elements are fully recyclable. At end of life, if you take the fixture to a recycling facility, each metal will be recovered for new metal production.

### **Installation of the lighting**

This lighting is only intended for indoor use, it must be installed away from moisture, splashing and sources of heat. Suitable for direct mounting on normally flammable surfaces. Before starting the installation, ensure the electrical supply is OFF at the circuit breaker in the consumer unit. Only switching OFF at the wall switch is not adequate. Carefully remove all packaging. All of our fixtures are fixed to the wall or to the ceiling by means of a mounting plate (placement is done by means of screws and dowels, not supplied). Some of our luminaires have more detailed installation instructions (attached to this document). Please read carefully before starting the installation. If you have any doubt about the installation of this lighting, please contact a qualified electrician.

### **Inserting or replacing a bulb**

Always ensure the electrical supply is OFF before this operation. If necessary, let the old bulb to cool for 10 minutes before removing. Place the bulb without forcing into the fitting. Do not directly touch it with the fingers, but with a cloth (fingerprints reduce the lifetime of a bulb). Be always attentive to the choice of a bulb, never exceed the maximum power (W) authorized, indicated on the labels of the light fitting. If an integral LED bulb attached to the fixture is defective, please contact your distributor.

### **Maintenance of your lighting**

Because smoke and dust particles in the air are attracted by a heat source, a deposit will appear on the fixture in the course of time. For maintenance, allow the bulb to cool for at least 10 minutes. Clean the fixture with a paper towel soaked with glass cleaner. Never use solvents, abrasive or corrosive products. Never immerse the fixture in water. If the wires are damaged, they must be replaced by a qualified electrician. This fixture must never be modified as this can make it dangerous to use.
