STÉPHANE DAVIDTS

LIGHTING COLLECTION

The prestigious competences in our workshops in Brussels

Hand made...

Creator of exclusive lighting, Stéphane DAVIDTS is recognized for the excellence of his lighting designs which include floor and table lamps, wall lamps, reading lamps, painting lights and spotlights. Pure, distinctive design and timeless style.

The key to the success of Stéphane DAVIDTS is the creation of designs in line with customer demand coupled with complete control of the manufacturing process and the meticulous selection of high grade raw materials.

In his workshops, Stéphane DAVIDTS has surrounded himself with a team of craftsmen who are masters of traditional and modern metal working techniques, resulting in a superior precision finished product.

All fixtures are made of brass which is the ideal foundation for the finest metal finishes. The application of the patina brushed bronze, light bronze and brushed chrome and brushed brass give the Lighting Collection a most contemporary look.

The lampshades are also “handmade” in Belgium which provides a uniquely decorative key to the lighting collection. Stéphane DAVIDTS integrates the extensive range of lampshade materials and colours with subtlety and style.

The Stéphane DAVIDTS product purchased by you will give a great deal of pleasure to behold and will remain an excellent choice for many years to come.

These are the considerable strengths of the Stéphane DAVIDTS Lighting Collection, 100% Made in Belgium and highly appreciated around the world by demanding customers, professional decorators and interior designers.

- 3 Lampshade NAPATA 45 : Ø 45-45-28 cm - Lampshade code : 4745 + fabric code
- 4 Lampshade NAPATA 60 : Ø 60-60-32 cm - Lampshade code : 4760 + fabric code
- 5 Lampshade NAPATA 80 : Ø 80-80-25 cm - Lampshade code : 4780 + fabric code

MOSQUITO NET

For round, square, rectangular or oval lampshades

The mosquito net can be placed on all lampshades with a suspension.
For bases KENTIKA E27 and KENTIKA NOURRICE (page 51), a lampshade Ø 60 cm is the maximum size for an easy placement.

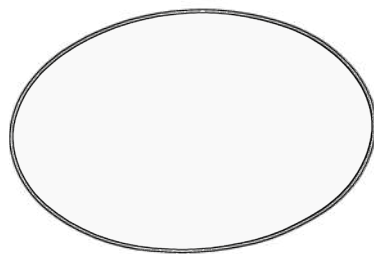

Use an integral diffuser for a maximal efficiency of the mosquito net

DIFFUSERS FOR LAMPSHADES

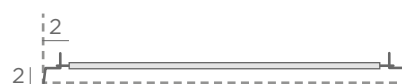

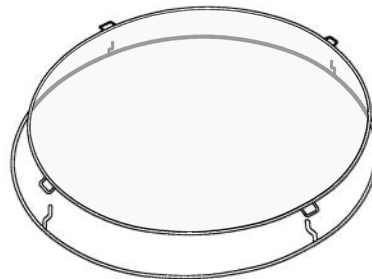

INTEGRAL DIFFUSER

Position in the lampshade

The integral diffuser fits only on cylindrical lampshades (round, square, rectangular or oval)

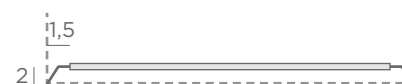

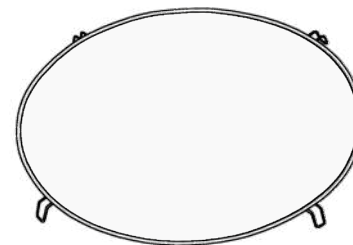

DIFFUSER WITH EYELETS

Position in the lampshade

The diffuser with eyelets is available for all lampshades (round, square, rectangular or oval)

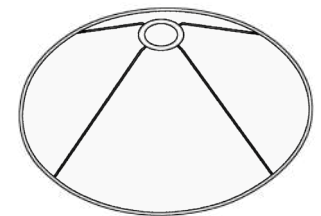

DIFFUSER WITH HOOKS

Position in the lampshade

The diffuser with hooks is available for lampshades with a maximum size of Ø 60 cm (round, square, rectangular or oval)

DIFFUSER WITH ATTACHMENT

Position in the lampshade

The diffuser with attachment is available for all lampshades (round, square, rectangular or oval)
This diffuser is not available to use with KENTIKA bases

MATERIALS & COLORS FOR LAMPSHADES

Our lampshades are available in a range of trendy colors and various materials. A significant added advantage of this "Made in Belgium" collection, which will be greatly appreciated by professional interiors designers.

Our wide range allows you to easily match the lampshades with any type of interior.

The lampshade code (4 digits) indicated under each luminaire with lampshade must be completed by the fabric code (3 digits) taken from each fabric sample.

Codes from 0 to 4 refer to five price categories listed in our price list.
