

FR PLACEMENT DE L'ABAT-JOUR *KAMOSIS*

Avant de placer l'abat-jour, fixez la patère de fixation au mur, raccordez les câbles d'alimentation et refermez l'applique au moyen des vis latérales.

Attention. Pour placer l'abat-jour, commencez par le glisser latéralement à l'intérieur de l'arche jusqu'à toucher les strips LED. (Fig.1)

Pour éviter de les endommager, il convient de relever le côté de l'abat-jour en le forçant légèrement (Fig.2) afin de passer au-dessus des LED. Glissez l'abat-jour jusqu'à ce qu'il soit centré sur l'applique et que les ergots pénètrent dans les trous prévus dans l'abat-jour.

NL PLAATSING VAN DE *KAMOSIS* LAMPENKAP

Alvorens de lampenkap te plaatsen, start met het fixatie te bevestigen tegen de muur, sluit de voedingsdraad aan en sluit de wandlamp door middel van de 4 laterale vijzen.

Opgepast. Om de lampenkap te plaatsen, begin met deze horizontaal te schuiven in de binnenkant van de ark totdat men de Led-strips bereikt. (Fig.1)

Om te vermijden deze te beschadigen, volstaat het om de zijkant van de lampenkap op te heffen en lichtjes te forceren (Fig.2) om over de LED te geraken. Schuif de lampenkap totdat U het midden van de basis bereikt heeft en de pinnetjes zich plaatsen in de gaatjes, voorzien in de lampenkap.

EN PLACEMENT OF THE *KAMOSIS* SHADE

Before placing of the shade, start by fixing the fixture at the wall, connect the cables and close the base with the 4 side screws.

Attention. To place the shade, start by laterally slipping it inside the arch until touching the LED-strips. (Fig.1)

To avoid the damaging, it's advisable to raise the side of the shade by slightly forcing it (Fig.2) to pass to the top of the LED. Continue to slip the shade until it's centered on the base and that the pins penetrates in the holes of the shade.

DE PLAZIERUNG DER *KAMOSIS* LAMPENSCHIRM

Für die Installation der Lampenschirm, starten Sie mit die Festsetzung der Befestigung an der Wand, schließen Sie das Kabels an und schließen Sie den Wandleuchte mit 4 seitlichen Schrauben.

Achtung. Um der Lampenschirm zu platzieren, starten Sie zunächst der Lampenschirm seitlich zu gleiten im Inneren des Bogens bis Sie die LED berühren. (Fig.1)

Um Schädle zu vermeiden, ist es ratsam, die Seite des Lampenschirm zu erhöhen, und dem etwas erzwingen (Fig. 2) um an der Spitze der LED zu erreichen. Danach weiterhin der Lampenschirm zu gleiten, bis es sich konzentriert auf die Basis und der Stifts sich in des Lochs der Lampenschirm dringen.

Installation and security instructions (please read and save)

This luminaire is manufactured according to European directives and standards relating to quality and safety of lighting fixtures. A declaration of conformity is available by downloading on our site.

Description of the lighting

Lighting for fixing to the wall or ceiling with handmade shade(s) with a soft and pleasant light distribution. More pictures, drawings and complete descriptions are available on our website.

Environmental protection

Our packaging is made from 100% recyclable or re-usable material. For care of the environment please sort or recycle. Fluorescent bulbs and waste electrical equipment should not be disposed of with household waste please take to a recycling facility. This fixture is essentially composed of solid brass. This metal and other elements are fully recyclable. At end of life, if you take the fixture to a recycling facility, each metal will be recovered for new metal production.

Installation of the lighting

This lighting is only intended for indoor use, it must be installed away from moisture, splashing and sources of heat. Suitable for direct mounting on normally flammable surfaces. Before starting the installation, ensure the electrical supply is OFF at the circuit breaker in the consumer unit. Only switching OFF at the wall switch is not adequate.

Carefully remove all packaging. All of our fixtures are fixed to the wall or to the ceiling by means of a mounting plate (placement is done by means of screws and dowels, not supplied). Some of our luminaires have more detailed installation instructions (attached to this document). Please read carefully before starting the installation.

If your light lighting has a fitting with shade ring, unscrew it in order to secure the shade to the fitting. If the shade is made with a seam, make sure that it is positioned towards the back of the light. Screw down the ring carefully. Place the bulb (not supplied) without forcing into the fitting. If necessary straighten the shade, only by carefully flexing the metal rods of the shade.

If you have any doubt about the installation of this lighting, please contact a qualified electrician.

Inserting or replacing a bulb

Always ensure the electrical supply is OFF before this operation. If necessary, let the old bulb to cool for 10 minutes before removing. Place the bulb without forcing into the fitting. Do not directly touch it with the fingers, but with a cloth (fingerprints reduce the lifetime of a bulb). Be always attentive to the choice of a bulb, never exceed the maximum power (W) authorized, indicated on the labels of the light fitting. If an integral LED bulb attached to the fixture is defective, please contact your distributor.

Maintenance of your shades

When your shade is dusted use only a brush suitable for delicate fabrics. Never rub the shade with a damp cloth or with water. Stains or marks on shades can't be removed, attempting removal will risk increasing the surface of the stain. In the case of a disaster, only a new shade can recover the original beautiful aspect and clarity of your lighting. To do this please contact your distributor.

Maintenance of your lighting

Because smoke and dust particles in the air are attracted by a heat source, a deposit will appear on the fixture in the course of time. For maintenance, allow the bulb to cool for at least 10 minutes. Clean the fixture with a paper towel soaked with glass cleaner. Never use solvents, abrasive or corrosive products. Never immerse the fixture in water. If the wires are damaged, they must be replaced by a qualified electrician. This fixture must never be modified as this can make it dangerous to use.
